## BRIEF WIRINGS.

**Miners Strike.**  
RICH HILL, Mo., July 28.—Over 1,500 miners struck yesterday. Cause not given.

**Coming Back.**  
New York, July 28.—Lazard Freres are advised of the shipment of \$1,000,000 in gold from Europe.

**Good Crops in Sight.**  
TOPEKA, Kas., July 28.—There are reports from numerous sections of splendid rains. This gives an assurance of an immense corn crop.

**A Cut in Pension Cash.**  
WASHINGTON, July 28.—The pension bureau has prepared an estimate of appropriations required for the fiscal year just begun. It amounts to \$166,160,565. It is believed that this is insufficient to meet all demands.

**Declined as Usual.**  
WASHINGTON, July 27.—The silver offered for sale to the treasury department yesterday amounted to 175,000 ounces at prices ranging from 0.7025 to 0.7050 per ounce, all of which was declined and 0.7020 tendered.

**A Deep Cut.**  
NEW YORK, July 28.—The Clark O. N. T. Thread company reduced its employees' working time from 7 a. m. to 4 p. m., Saturdays included. This reduces the pay of the 1,500 hands over one-third. Stringency of money and no demand for goods is the cause.

**"Me Too" Whitney.**  
NEW YORK, July 28.—Wm. C. Whitney, ex-secretary of the navy, in an interview, heartily endorsed Cleveland's policy in urging the repeal of the Sherman law as preliminary to tariff reform. He attributed the present hard times and disasters to the purchase of silver by the government.

**Verging on Riots.**  
DENVER, July 27.—A mob of unemployed men yesterday afternoon made arrangements to take possession of a freight train bound for Kansas City. The railroad officials learned of the intention and ordered ten loaded cars to be taken off and ten empty ones put on in their place. The train pulled out with the cars loaded with men going east to seek employment.

**Chicago Silver Convention.**  
CHICAGO, July 28.—The national silver convention to meet here August 1 will assemble in the old Methodist church, corner of Clark and Washington streets. There will be a mass meeting in Central hall Tuesday night and an open air mass meeting Wednesday night in Lake Front park.

**Got What He Wanted.**  
AUBURN, July 27.—Murderer Taylor was successfully electrocuted at 12:45 yesterday. Taylor murdered his shopmate in prison for the sole purpose of being executed, as he was weary of life. The usual precautions had been taken; the condemned placed in the chair and the current turned on. When it was turned off the dead came back to life. Again an effort was made to turn on the current, when it was found that the dynamo had broken down. A delay of an hour ensued, while the wires in the death chamber were being connected with the electric company's plant. Another shock was then turned on, after which the physician pronounced the wretched man dead.

**A Bad Mob in Denver.**  
DENVER, July 27.—Dan Arata, an Italian saloon keeper, brutally murdered B. C. Lightfoot, a Grand Army man, 62 years of age, over the price of a glass of beer. The murderer was locked up. Last night a mob of 10,000 men went to the jail and after three hours work broke in the doors and took the Italian out and hung him to a cottonwood tree. The body was then cut down and dragged through the principal streets of the city and hung to an electric light pole. The officers at the jail in defending that institution fired on the mob, seriously injuring three men.

Arata was a born criminal and no sympathy is felt in the Italian quarter. Public opinion strongly condemns the brutality of the lynching.

**FRANCE'S ULTIMATUM.**  
What She Demands That Little Siam Shall Do and Do at Once.

PARIS, July 28.—It is stated that an effective blockade of the Siamese coast by the French fleet will begin on Saturday or Sunday next. Following are the terms of the ultimatum sent by France to Siam:  
1. A recognition of the rights of Annam and Cambodia on the left or eastern bank of the Mekong river.  
2. The evacuation of the forts held there by the Siamese within a month.  
3. Full satisfaction for various aggressions against French ships and French sailors on the Menam river.  
4. The punishment of the culprits and provision for the pecuniary indemnity of the victims.  
5. An indemnity of 2,000,000 francs for various damages sustained by French subjects.  
6. The immediate deposit of 3,000,000 francs to guarantee the payment of the fourth and fifth claims, or the assignment of the taxes in certain districts in lieu of the deposit of 3,000,000 francs.

## NEW MEXICO MINES.

### HILLSBORO ALL RIGHT.

Manager Galles, of the Standard company, told an Advocate reporter that he was now of the opinion that all of the mines in the Hillsboro district can continue in operation. Good enough.

The Standard company shipped another car load of matte the first of the week.

The Bonanza paid off last Saturday. Friday is the Parola company's pay day, and next Wednesday is the Standard's.

The first thing Dicky & Laramy did last Saturday on striking their ore body with their tunnel, was to pry out a large chunk of three oz. stuff and it is at the Advocate office.

It is a handsome specimen, showing the vein to be both large and rich. Mark down another producer for the Hillsboro district.

Output of Hillsboro gold mines for the week ending Thursday, July 20, 1893, as reported for The Advocate:

From the Standard Gold Mining & Milling company:	Tons.
Opportunity mine	125
From the Good-Hope Bonanza Mining & Milling company:	
Bonanza mine	110
Percha	100
From the Bonanza and all other mines	60
Total	395

Total output since January 1, 13,463 tons.

### KINGSTON'S SENSATION.

One of the most daring wholesale robberies ever committed in Sierra county, has taken place within the past few days, but at exactly what time it is not known. One night during the past week a wagon drove up to the door of the Daily Huntingdon concentrator, in the Las Animas gold district, four miles north of Kingston, and virtually looted the mill of all its movable machinery and fixtures.

The establishment had been closed down for some months past, pending a suit in court, and the doors had been securely closed and the keys in the hands and keeping of Mr. J. W. Fender, of Kingston.

The mill stood just as it had been left when closed down from running. No trace of the perpetrators of this daring deed has been found, and Dr. Daily, the owner, who resides in Kansas City, Mo., has been telegraphed, who will immediately put the case into the hands of officers.

### GRANT COUNTY SUGGESTS.

Mills which have been idle for the want of water with which to treat ore will now be able to commence operations. There is a large amount of ore out in this county awaiting treatment, and it will keep a number of mills employed for some time.

The output of gold in this county took a sudden jump last week, and for the next few weeks the output promises to be much larger than it has been for some time. The recent heavy rains have filled the gulches with water and the people who have had any experience in placer mining lost no time in getting to work. Quite a number went out from this place to try their luck in the gulches of Pinos Altos.

Some nuggets of very fine size were picked up, and it is quite probable that if the rainy season continues for any considerable length of time, there will be a great deal of gold washed out this summer and fall in the gulches in different parts of the county. Placer mining can only be carried on in the vicinity of Pinos Altos during a small portion of the year on account of the limited supply of water, but during the rainy season there is usually enough to keep a good many men at work. This year there will be more placer mining done than usual for the reason that there are more men out of employment than in former years who will embrace the opportunity to earn a living by washing out gold.

**THE BULLION FEELS IT.**  
The El Paso Bullion, Prof. Chas. Longueure's mining journal, hitherto published weekly, makes this announcement:  
"The present depression in mining throughout the silver regions of the country necessitates an immediate retrenchment upon the part of the management, and from this date until further advice the El Paso will appear semi-monthly. The time of publication will be the 15th and 30th of each month."

**THE BURRO MOUNTAIN TURQUOISE.**  
Hon. H. H. Betts writes from Silver City that the New Mexican was in error in stating that he had an interest in the turquoise mines in Burro mountains. He has no interest in these particular mines, although in mines in the same locality he has interests.

### WILL RECEIVE ORE.

The Atlantic & Pacific Railroad company is notifying the mining camps by circular that the smelters at Pueblo, Denver and Argentine are now running and will receive and pay for ore at New York quotations.

### Notice to the Public.

The University of New Mexico having leased the premises occupied by the Ramona Indian school, to Prof. Elmore Chase, who will hereafter conduct the same in his own name, this is to give notice that all parties having bills and accounts against said Ramona Indian school, for merchandise purchased prior to July 1, 1893, are requested to present the same to the undersigned for settlement. After said last day of July, 1893, the University of New Mexico will not be responsible for any merchandise or supplies purchased for said Ramona Indian school.  
THE UNIVERSITY OF NEW MEXICO,  
L. BRADFORD PRINCE, President.  
Wm. M. BROWN, Secretary.  
Santa Fe, N. M., July 1, 1893.

### TERRITORIAL TIPS.

#### ALBUQUERQUE REMOVED.

Booth, the sheep buyer, is in the city. W. T. McCreight has started on his eastern trip.

D. C. Spaulding, who is connected with Mitchell Bros.' big lumber interests, is in town.

Mr. and Mrs. Noa Ifield, who have been spending several weeks at Las Vegas hot springs, have returned.

Camp Whitcomb was patrolled and by actual count forty persons were counted as temporary residents of that resort.

The third ward school grounds are graded, the last of the four requiring many hundred loads of sand to accomplish the desired change in each location.

Donciano Chavez and Anastacio Barela, of Barelas, were in the city and report the first crops for years in that precinct. Of apples and peaches there is nothing, but of grapes, wheat, corn and vegetables there is abundance.

Ed. Patterson and others landed a big string of fish about ten miles below town Thursday. The variety was unusual, an eight-pound bass and an eel being among the number. There is evidently some mistake about the bass, as that species is unknown to the Rio Grande.

The colored people of the city are at work on a colonization enterprise, by which fifty colored families from the south are to be located near Albuquerque. They would devote themselves to agricultural and horticultural pursuits.

Mrs. Emma M. Bradley, wife of a former Albuquerque dentist, but for some time a resident of Salt Lake City, is supposed to have perished in the burning of the cold storage building at the World's fair. Mrs. Bradley was the mother of Mrs. J. A. Lang, of Albuquerque, Mr. Lang having been a prominent candidate for the office of United States marshal for the territory.

J. H. Madden and wife are accused of extreme cruelty to their 8-year-old daughter. According to their own admissions they have been keeping the child tied with cords hand and foot both day and night, for the past five months, but justify themselves in such treatment by claiming that it was done to break the little girl from certain depraved solitary habits which she had acquired.

### LAS VEGAS LOCALS.

Fine rain in town and all the sections round about.

Mike Slattery is over at Clayton from the Bell ranch making a large delivery of cattle.

The Optic calls on Pablo Herrera to come in and give himself up to the authorities.

Hartman & Weil will see to it that county exhibits reach the New Mexico exhibit in Chicago.

Mrs. Mary C. Minner has applied for a divorce from her husband, John Arthur Calhoun Minner.

Mrs. Minnie Lamberson, who was cook at the home, died with a severe attack of hysterical convulsions, to which she was subject.

Nicolas T. Cordova will go it alone in the sheep and cattle commission business, now that Tony Cajal, his partner, has sold out and concluded to try his fortune in the Golden state.

J. L. Lamb, of Cankill, was represented by Attorney A. A. Jones, before the county board, in his demand that he be reimbursed for money paid by him for the Los Trigos grant, which he bought at tax sale in July, 1889, it afterward being declared void on the ground of irregularity in making the assessment. The matter was taken under advisement by the commissioners.

A Kansas firm, doing considerable business in this city, wrote to one of its customers to forward the monthly remittance in cash, by Wells-Fargo Express company, instead of by check, as heretofore. The party addressed replied with a check on a city bank, telling the Kansas party that Las Vegas banks were good.

### SILVER CITY SIFTINGS.

The rains have done considerable damage to the Silver City and Northern railroad, within the past ten days.

Fruit is being brought into town from far Mimbres valley in considerable quantities, and it is of good quality.

An orchestra now furnishes music for the services at the Methodist church and the attendance has increased considerably.

The board of school trustees in the Brockman district, on the Mimbres, will issue bonds for the purpose of erecting a school house this year. The bonds have already been voted.

There will be a good opportunity for somebody to make a neat little sum cutting hay a few weeks hence on the bottom lands where there have been heavy rains. Native hay makes good feed and there is always ready sale for it.

Old residents say that the rainy season this year is starting in like that of 1881 when the heaviest rains fell that have been known here for many years. The rain fall of this month so far is considerably above the average.

The assessed valuation of property in this county this year is about \$200,000 less than it was last year. The value of the property in the county as returned by the assessor this year is \$4,038,702. This is about a million dollars less than the valuation of the property in the county four years ago.

If there had been a big storage reservoir below town to catch the flood water which has passed down through the streets of this place within the past two weeks, enough water could have been caught to have irrigated the valley for miles. The construction of such a dam would be rather expensive, but it would pay for itself in a few years.

### The Latest Murders.

Tom Hall, who shot and killed Ed. Burleson last Sunday at Pine Cienega, came in to Silver City on Wednesday and gave himself up. He says he was riding past Burleson's house when Burleson fired at him three times, one of the bullets going through his hat. He then pulled his Winchester and fired at Burleson, the bullet striking him between the eyes.

Sheriff Lopez has returned to Las Vegas from Lamy and Cerrillos, where he went to search for Candelario Ortiz, the murderer of Andres Garcia. The sheriff is fully assured by what he saw and heard that the murderer is now hidden either in the fastnesses of the San Pedro mountains or at Pinos Wells, in Valencia county.

It is the intention of Sheriff Lopez to wire Gov. Thornton asking him to offer a reward for Candelario Ortiz, and it is the opinion of this officer that an additional reward by the citizens of Las Vegas would greatly expedite matters and undoubtedly result in the capture of the murderer.

### Hamona Concert.

Circumstances compel a change of time from Saturday to Friday night, and change of place from Whittin hall to Gray's opera house. A small admission fee of 25 cents will be charged for adults and 10 cents for children; children with parents free. This charge is to cover the expense of the concert. The school asks all interested to witness the rendition of this exercise. This concert shows only two branches of work, music and English speaking. But it shows what is the quality of the training.

Leave orders at Haffner & Miller's for family supplies from the Reber bottling works. Soda and other summer drinks, perfectly pure and healthful, \$1 per case.

### Water Notice.

On account of imminent danger of water famine, the Water company gives notice that all irrigation from pipes in the city must be discontinued till after rain and further notice. Failure to comply promptly and fully with this notice or any waste of water permitted will subject the premises to being shut off from water supply, even for domestic purposes, without further notice.
